## **Business**

**Grenadier Holdings is a privately held investment company. We acquire, invest in, and build excellent companies. We support and partner with our leadership teams to achieve sustainable growth and make a positive impact.**

Grenadier Holdings was formed through the evolution of the former Paragon Group into a series of investment holdings. Historically, Paragon Group took direct operational responsibility for the running of operating companies. As these companies have evolved and grown to their current scale, our focus has also shifted – Grenadier Holdings now holds significant shareholdings in our operating companies (Paragon, Paragon ID, Graphic Services and Grenadier Packaging) and our focus is now to manage and foster the evolution and growth of these investments.

Our investments align with our near 140-year heritage in delivering critical business services including customer communications, contactless smart technologies, and print & packaging related services. This alignment ensures that Grenadier Holdings adds experience and insights to our investments, helping achieve our shared goals.

Due to the nature of the services that the Company provides our supply chain is complex. Our vast and diverse network of suppliers spans the globe across Europe, the Middle East, Asia, and the Americas, and includes small and medium sized enterprises as well as and large-scale corporations with the majority residing in the UK and mainland Europe.

The Company remains committed to acting responsibly and supporting the objectives of the Modern Slavery Act and has established an enhanced strategic approach to vetting current and new suppliers.

Grenadier expects all contractors, suppliers, and other business partners to uphold high standards in all business practices and to share our zero-tolerance approach to slavery and human trafficking. We expect all suppliers to comply with all relevant laws of the country in which they operate.

Some potential risk areas for modern slavery within our own supply chains include vulnerable populations in politically or economically unstable regions as well as high-risk product and service categories such as clothing and apparel.

## **Supply Chain (continued)**

Risk-based audits and questionnaires are regularly conducted on our existing strategic supply base. These audits assess a wide variety of issues including:

- Employment policies, practices, and compliance to Working Time Directive
- Subcontracting policies
- Confirmation of right to work as a condition of employment
- Working practices
- Management structures
- Assurance that the sites audited have capacity for types of workloads reported (they are not subcontracted to an unreported 3rd party)
- Any accommodation and transport provided for workers
- Compliance with our Supplier Code of Conduct
- Providing a copy of their own Modern Slavery Statements

These audits are intended to identify any Modern Slavery and Human Rights Abuse practices. We review what appropriate investigative and remedial actions should be taken if issues of concern are identified.

Our culture encourages responsible practice at all levels of the organisation and presents clear guiding principles that drive ethical interactions with, and outcomes for, our key stakeholders.**

We have enforced effective systems and controls to minimise the risk of Modern Slavery in our own business and supply chains.

Control maturity varies across the Grenadier operating businesses depending on the risk factors associated with the activities of each company.

Policies and practices may include Staff Handbooks, Supplier Codes of Conduct, Recruitment and Selection Policies, Whistleblowing Policy, Equal Opportunities Policies, Anti-Bribery and Corruption Policies and Principles of Business Ethics.

Our employees receive a written statement of their terms and conditions, including but not limited to; pay, working hours, holiday entitlement and pay, overtime rates, sick pay, and deductions. We carry out checks to ensure that our employees have a legal right to work in the UK or other countries in which they are employed.

We utilise temporary workers in addition to our permanent employees to support our business needs. Any third-party workers are subject to the same checks and policies as our employees. No recruitment fees are paid by the individual being considered for employment.
